

# WELLESLEY STREET CARPARK

## FREE PARKING

Les Mills members can get up to 90 minutes free parking at the Wellesley Street Carpark (behind the gym) while working out.

Here's how:

- 1 Download the Smart Parking app
- 2 Park, and enter your bay number into the app
- 3 Swipe into the club to work out

Then you'll automatically be credited with up to 90 minutes of free parking.

## GOING OVER 90 MINUTES?

**If you know in advance that you're going to be longer...**

You can pay up-front for additional parking by selecting the 'Public' parking option. You can pay for an additional parking period, of up to 2.5 hours during business hours and at the flat night rate after hours and on weekends. When you swipe into the gym your 90 minutes free parking will be added to the end of your session.

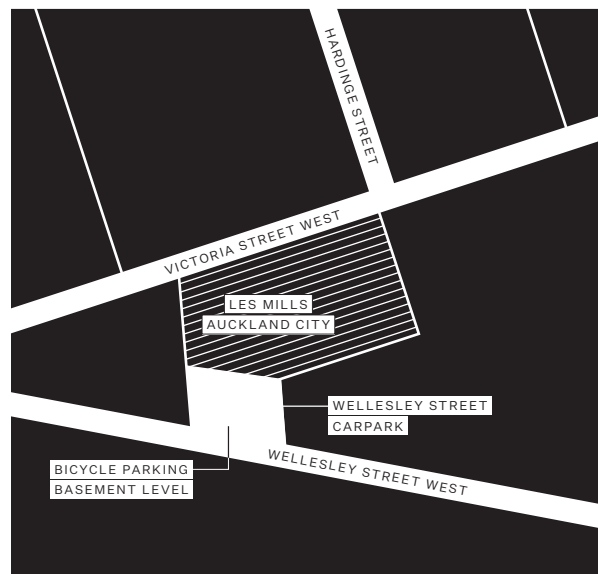

**If you've only opted for the member free 90 minutes**

You'll get a phone alert 15 minutes before the end of your free parking. You have the opportunity to confirm whether you'd like to continue with a paid parking session. During business hours (5am-6pm weekdays), you will be able to purchase extra time in increments of 15 minutes, up to a total parking session of 4 hours. After hours and on weekends, additional time will be charged at the night rate.

## WHERE TO PARK

Accessible and bicycle parks can be found in the basement of the Wellesley Street Carpark. Entrance to this park is shown on the map.

Scooter and motorbike parks remain at the Victoria Street West Rooftop Carpark. All other member parking is available at the Wellesley Street West Carpark.
